CORRESPONDENCE.

ve do not hold ourselves resconsible for the opinion • expressed by our Correspondents. THE BANK OF CHINA AND JAPAN, LIMITED. TO THE EDITOR OF THE " DAILY PRESS." DEAR SIR, -in reference to the letter of "A w 21 . m 8 19 Shareholder "of the above Bank evolved out of the Trust and Loan Company of China, Japan,

and the Straits, Limited, I quite agree that the P. shareholders in this part of the world ought not to quietly submit to be shorn for the benefit of home depositors. This proposed reconstruction of the Bank I regard as a ruse to get the shareholders of the Trust and Loan Company to pay up quietly. Money from the East is required to pay off the English depositors, who are friends or constituents of the directors. These depositors are to be paid 25 per cent. of their deposits right off and the remaining 75 per cent. in four years in half-yearly instalments. The money in the hands of the Bank will therefore be gradually reduced. and I fail to see how a banking business is to be conducted under such circumstances. A: Bank ...nat have constituents; where are the constiquents of the pank of think and Japan to maintain that the Board have alienated the shareholders by prosecuting some, persecuting

others over these calls, and I do not believe they can gather a constituency outside those supposed to be pecuniarily interested in it. How, then. is the Bunk to make money? The Chairman told the shareholders in London that up to the | they ... remained for distribution. It may be argued that Housebong. was insolvent. If he had had any grounds. the fall in silver is the sole cause of the collapse Victoria Peak.... for believing he was selvent in April, 1894, it of the Bank of China, but such is not really the Gap Rock ....... would have been a different thing; but in De. fact.
